Tuesday and Wednesday

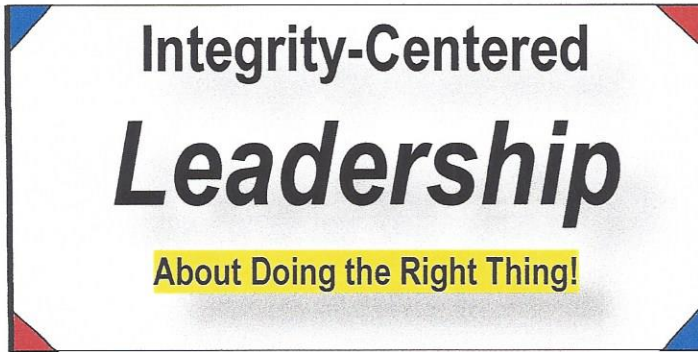

Presented by

Apache Junction Police Department

and

Superstition Fire & Medical District

with Dodson Training Resources, Inc.

Course has been determined to qualify for 14 hours of AZ Post continuing training credit

One of the nation's leading training seminars on Personal Leadership that participants will find career enhancing, personally rewarding and professionally developing.

➤ COURSE DESCRIPTION

"Integrity-Centered Leadership" is an essential quality of building trust within an organization and the responsibility of all members to reflect that image by "doing the right thing, the right way and for the right reason." It has often been said that, "everything rises and falls upon leadership." Today's public safety and criminal justice agencies need strong leaders and many of them. To meet the demands placed upon these agencies, leadership should be fostered at all levels of the organization and all employees from the agency head and other managers down through the ranks to supervisors, trainers, officers, clerks and secretaries, should be encouraged to act as leaders.

The leadership challenge of developing excellence in yourself and others is built upon a well established truth, "You can not lead others until you can lead yourself." Much of the leadership training today is geared more toward ability and proficiency in one's profession. It often ignores the benefits of developing sound personal leadership principles in our personnel which serve as the foundation on which to build cohesiveness within an organization and enhance all other professional development. This course focuses on proven principles of personal leadership development. It offers a blueprint that will greatly impact and influence any new, current or future leader that true leadership excellence is doing the right thing, setting the right example, serving as a role model and making a difference in other people's lives.

"Integrity-Centered Leadership" is about sound human resource development that highlights the difference in an average organization or one that provides the "winning edge" in employee, staff and organizational development.

➤ COURSE OBJECTIVE

Public safety and criminal justice professionals encounter, on a daily basis, a myriad of society's most difficult and demanding challenges. The sound leadership principles and skills taught in this training will provide new, current and future leaders at all levels with a foundation that will allow them to immediately transfer these principles and skills to real-life challenges that they will encounter in both their personal and professional lives.

➤ Course Modules

Personal leadership traits and qualities, Setting priorities, Integrity, Ethics, Vision, Dealing with change, Attitude, Problem solving, Self-discipline and Wellness

The Instructor

James W. Dodson, Commander, (retired) is a fourth-generation Texas Police Officer with 27 years of service with the Odessa, Texas Police Department. During his service to the community, he rose through the ranks to the position of Police Commander, which he held for 14 years. Commander Dodson had extensive experience in narcotic law enforcement, both as an agent and supervisor. He had over seventeen years of command experience in managing the Internal Affairs function, the Criminal Investigation and Patrol Services Bureau, and was a state certified instructor for over 22 years, specializing in the areas of Arrest, Search and Seizure, Police Supervision and Leadership. He has established a continuous proven track record in his commitment to the development of public safety and criminal justice professionals. In June of 2006, he was awarded the Texas Police Association "Wallace Beasley Award" for outstanding contribution to law enforcement training and education. Jim Dodson is a national level leadership, integrity and ethics seminar presenter and the CEO and founder of Dodson Training Resources, Inc.
